

FY2023 1st

SSS MATCHING WORKSHOP

Call for Participation

Promote your idea to society!

Have you ever wished to know how your own research ideas would be accepted by society beyond academia? The SSS Matching Workshop realizes this. In the workshop, students present the research ideas to researchers/engineers from companies related to the super smart society. In the past workshops, several joint industry-university research projects and internships have emerged from the workshop.

2023.

6/7

(Wed)

12:30-20:00

Venue

Tokyo Tech Front
Kuramae Hall and Royal blue Hall

Target Participants

TokyoTech Students (B4, Master, Doctor)
Faculty, SSS Consortium

Participant' Voice

I could see possibilities for my **research** and **career**.

I gained a lot of experience in expressing myself. How to make others understand my research, How to explain my research to people in different fields, etc.

Student

In addition to the students' presentations, we could exchange opinions with the professors and understand the purpose and characteristics of the research deeply.

Partner

There are many interesting research and we have high expectations for the future.

 **超スマート社会卓越教育院**
 Tokyo Tech Academy for Super Smart Society

WISE-SSS aims to cultivate "knowledge professionals" who can integrate physical space technologies with cyber space technologies as well as advanced sciences and technologies, such as quantum science and artificial intelligence.

※※Participation is required for applying to "WISE-SSS"

 **超スマート社会推進コンソーシアム**
 TokyoTech Super Smart Society Promotion Consortium

The Super Smart Society Promotion Consortium, which promotes the realization of the super smart society, will build a new next-generation social collaboration education and research platform that integrates everything from human resource development to research and development in collaboration with participating partners.
